

# 2025–26 Lewis & Clark College and Campus Living Public Health Agreement

Lewis & Clark College (*College*) Office of Campus Living (*CL*) aims to deliver its mission while protecting the health and safety of our residents and minimizing the potential spread of disease within our community. As a resident within Lewis & Clark College housing (*College Housing*), the 2019 Novel Coronavirus (COVID), or similar public health crisis, may impact your housing experience as the *College* continues to make public health-informed decisions based on guidance from the CDC, Oregon Health Authority and Multnomah County Public Health. Below we have described how some specific aspects of the *CL* housing agreements are applicable in the context of COVID. As always, we will endeavor to update you with timely information (found at <https://www.lclark.edu/news/covid-19-response/>) about specific health and safety guidance important for our residents.

## 1. Health and Safety

We expect all members of the *College Housing* community—residents, staff and guests—to act in a manner that demonstrates respect and consideration for those around them including respect and consideration for the health and safety of all community members. All residents are prohibited from behavior that would create a health or safety hazard within *College Housing*, and the *College* may request or require a resident to leave *College Housing* if their continued presence in the housing community poses a health or safety risk for community members. Residents are required to comply with health and safety laws, orders, ordinances, regulations and health and safety guidance adopted by the *College* or *CL* as it relates to public health crises including COVID. This guidance will evolve as the public health crisis evolves and may include, but is not limited to, social and physical distancing, limitations on gatherings, wearing a face covering, diagnostic and surveillance testing (including before or upon arrival to campus), contact tracing, disinfection protocols, limitations on guests into *College Housing*, and quarantine/isolation requirements (including before or upon arrival to campus). Adherence to health and safety requirements applies to all residents, staff and visitors and extends to all areas of *College Housing*, including *Rooms*, *Apartments*, bathrooms, community kitchens, lounges, study rooms, courtyards, *Common Areas*, dining facilities and other communal spaces. Some areas of *College Housing* may have different requirements than others. Requirements relevant to each area will be provided to residents as necessary.

## 2. Quarantine, Isolation and Separation

Residents are required to comply with requests from the *College* or *CL* to leave, or in some cases remain in, their assigned space within a timeframe specified by the *College* due to COVID or other public health emergency, and failure to do so is a violation of the *CL* housing agreement and may subject a resident to emergency removal from their assigned space. Depending on the nature of a public health emergency and guidance at local, state, and federal levels, not all *College Housing* residential *Rooms* or buildings may be appropriate for quarantine or isolation. In those situations where a resident is recommended to quarantine or isolate, residents may or may not be permitted to continue residing in their residential space, and *CL* will attempt to provide alternative housing arrangements as needed. Removal from *College Housing* to isolate or quarantine does not constitute a termination of a resident's housing agreement.

## 3. De-Densifying Efforts

Residents are required to comply with any de-densifying efforts needed on campus due to COVID or other public health emergency, including, but not limited to, the relocation of all or some residents to alternative housing. Relocation does not constitute a *Termination* of a resident's housing agreement. In the event *CL* must relocate residents as part of a de-densifying strategy due to public health concerns for an extended period of time and alternative housing is not available, the *College* will offer impacted residents fair and reasonable reimbursement as appropriate and based on information available at that time.

## 4. Consolidation

Residents are required to comply with any consolidation efforts needed on campus due to COVID or other public health emergency, including, but not limited to, the relocation of all or some residents to alternative housing. Relocation does not constitute a *Termination* of a resident's housing agreement. In the event *CL* must relocate residents as part of a consolidation strategy due to public health concerns for an extended period of time and alternative housing is not available, the *College* will offer impacted residents a new assignment at the same rate as their current room.

## 5. Dining Services

Dining service, including where and how it will be offered to residents, is subject to the discretion of CL and the *College* and is subject to modification to address public health concerns. Due to health and safety guidance adopted by the *College* or *CL*, *CL* may limit the occupancy of dining areas, limit the amount of time students and other customers may remain within *CL* dining areas, or make other operational adjustments needed to address health and safety concerns.

## **6. Cleaning**

*CL* will continue to implement and modify its cleaning protocols to address COVID or other public health emergencies in the interest of minimizing the spread of disease until deemed no longer necessary. *CL* will educate and inform residents on appropriate cleaning protocols within their assigned spaces to reduce the spread of COVID within *College Housing*.

## **7. Cancellation**

*CL* will adhere to *Cancellation* requirements and charges as detailed at [https://college.clark.edu/student\\_life/campus\\_living/housing-contracts-and-release/](https://college.clark.edu/student_life/campus_living/housing-contracts-and-release/), regardless of any change to the manner in which classes are delivered, as long as *CL* continues to provide on-campus housing and dining as outlined in the Emergency Closures section of the *CL* housing agreement.

## **8. Termination**

As outlined in the Emergency Closures section of the *CL* housing agreement, *CL* reserves the right to *Terminate* housing agreements due to public health emergency needs, including COVID. In the event *CL* terminates a housing agreement due to public health concerns, the *College* will offer fair and reasonable adjustments for impacted residents as appropriate and based on information available at that time. *Termination* charges will remain in effect as long as *CL* continues to provide on campus housing and dining, even if *College* alters the manner in which classes are delivered during the *CL* housing *Agreement Period*.

## **9. Agreement Start Date**

The terms of the *CL* housing agreement will be effective as of the resident's move-in date, even if it differs from the published agreement start date.

Some *CL* programs and services may require modification due to public health needs. Protecting the health and safety of our residents and minimizing the potential spread of disease within our community is paramount. Our goal is to continue to provide the best possible student experience and customer service under these circumstances.
